ABOUT US

We are a company dedicated to the development of turnkey projects integrating the highest technology in all our products.

We offer integral solutions in which our main objective is to meet the demands of our clients, keeping focus on their technical and commercial interests.

We specialize in the design, fabrication, installation and start up of paint finishing systems.

Our after-sales service department supports all the service and spare parts requirements for our clients.
CORPORATE VALUES

INTEGRITY
We develop our activities by promoting justice, ethics, professionalism and respect.

FAMILY
Work and family balance creates a productive workforce and healthy business.

TEAMWORK
The success of a team promotes the success of an individual.

GROWTH OF HUMAN TALENT
We fight for the constant growth of our team.

LOYALTY
Trust in our people and in our business partners generates a fair business environment.

MUTUAL RESPECT
With everyone involved in the planning, management and execution of our projects.
OUR ESSENCE

VISION

"To create and inspire confidence in our sector, being the company recognized for its high capacity of design and execution"

MISSION

To develop projects with a high content of engineering and technology for the industry, integrating a team of dynamic and experienced collaborators who provide added value to the products and services we offer, contributing to the growth of the company and guaranteeing the satisfaction of our clients.
PAINT SYSTEM

LIQUID PAINT BOOTHS
- Dry Filter Paint Booths
- Water Wash Paint Booths (Vertical or Floor Venturi)
- Automotive Paint Booths

POWDER PAINT BOOTH
- Cyclone Booths
- Cartridge Booths

INDUSTRIAL OVENS
- Convection Ovens
- Infrared Ovens
- Catalytic Ovens
- Batch Type Ovens
- Elevated or Floor Ovens
- Burn-Off Ovens

CONVEYOR SYSTEM
- Enclosed Track Conveyor (Overhead and Floor)
- “I” Beam Conveyor
- Power & Free Conveyor (Overhead and Inverted)
- Electrified Monorail

AUXILIARY EQUIPMENT
- Paint circulating systems
- Paint mix rooms
- Oil supply systems
- Sealer lines
- Glue lines
- Water treatment plants
- Dust collectors
- Temperature control systems

COOLING TUNNEL
- Tunnel with Cold or Ambient Forced Air
AIR MAKE-UP UNIT
- Forced Air Tunnel, Room Temperature and Controlled Temperature
- Directional Nozzles Systems, Diffusers and Fans

AIR MAKE-UP UNIT
- With Humidity and Temperature Control

COOLING TUNNEL
- Forced Air Tunnel, Room Temperature and Controlled Temperature
- Directional Nozzles Systems, Diffusers and Fans

DRY OFF OVEN

PRETREATMENT SYSTEM
- Zinc Phosphate
- Iron Phosphate
- Nanotechnology
- Conversion Coatings

E-COAT
- Cataphoretic
- Anaphoretic
- Autophoretic

ALLIANCES

We have developed commercial alliances with companies recognized for their capacity and quality of their products. This allow us to integrate every system with the best components, delivering the best technical solution in our projects. Our alliance with GLOBAL FINISHING SOLUTIONS, allow us to utilize equipment and components of the highest quality, as well as certified specialists, guaranteeing the success of your investment.
WHY CHOOSE ANAEROBIA?

• As a result of our engineering and manufacturing team, we are able to provide short delivery times and easy to install products.

• We work with many of the most recognized and innovative brands in the market to keep on the leading edge of technology.

• Our customers receive a complete turnkey solution from a single source, which greatly reduces risks and represents a trouble-free project.

• Our world class engineering capabilities allow us to provide all levels of custom solutions while working together with our customers to provide the optimal result at the most effective cost.
